Wyndham Private Medical Centre was designed to accommodate the essential services of healthcare service providers and practitioners.

Completed in May 2012, Wyndham Private Medical Centre is a high quality two level building including 200 car parks for visitors and staff in a spacious landscaped environment.

We offer a limited number of fully equipped, managed specialist consulting suites. These can be either sessional or permanent suites and provide reception services options, internet, phone, cleaning and furniture.

We also have over 12 General Practitioners in house, so there is plenty of scope for referrals and cross collaboration.

Please see www.wyndhamprivate.com.au for a list of specialists whom currently consult from Wyndham Private Specialist Consulting Suites.
